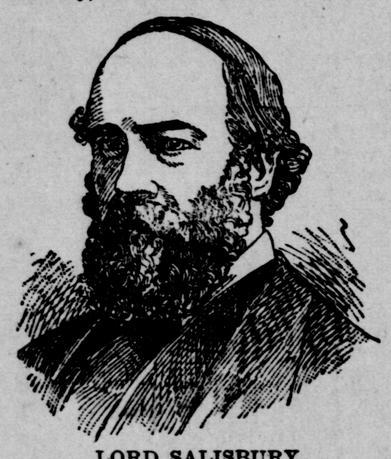
ROSEBERY GOES OUT; SALISBURY GOES IN

CONSERVATIVE LEADER IS NOW PRIME MINISTER.

The Defeat of The Conservative Measure in the House of Commons Friday Night Puts His Party Into Power Again—Personnel of The New Ministry a Mystery.

London, June 24.—It was announced last evening that the outcome of the deliberations of the cabinet in consequence of the adverse vote in the house of commons on Friday is that Lord Rosebery, the prime minister, has tendered his resignation to the queen. Her mejesty has therefore summoned Lord Salisbury, the leader of the Conserva-



LORD SALISBURY.

tive party, to Windsor, in connection with the formation of a Conservative ministry.

The leading Conservatives declare that the Marquis of Salisbury will not formally take office until parliament is dissolved. He will insist that the government, before yielding the seats, shall pass a vote of an amount necessary for the expenditures for two months, to enable a general election to be held. The Conservatives will thus be in a position of attack instead of defense.

It is understood that the Marquis of Salisbury agrees to form a cabinet only

LORD ROSEBERY.

on condition that parliament is dissolved. Nothing is known regarding the personnel of the new ministry, but complete harmony exists between the Liberal Unionists and the Conservatives.

The Irish members are extremely uneasy and dissatisfied. They state that, after acting for three years as the strongest arm of the government, they are deeply concerned at the sudden end of the government without passing any of the principal Irish measures. Not only has home rule not progressed, but the measure concerning the Christian brothers, the county council bill, which reached a second reading, the grand jury bill, and the proposal to extend the power of guardians regarding laborers' cottages were all lost.

The Chronicle says it is definitely known the Duke of Devonshire will accept office and that the Hon. George N. Curzon goes to the India office.

Ex-Warden to Be Prosecuted.

Topeka, Kan., June 24.—Ex-Warden Chase, who turned over the keys of the Kansas penitentiary Saturday, is to be prosecuted by state officials for misappropriation of public funds. For several years Oklahoma has been keeping prisoners in the Kansas penitentiary on contract. While Chase was under suspension he went to Guthrie and collected $2,300, a part of which he used in paying the salaries of himself and members of his family. Under the law this is misappropriation of public funds, and the state officials will institute criminal proceedings against the ex-warden.

Fighting in Macedonia.

Sofia, Bulgaria, June 24.—The Prawo newspaper states that the insurrection in Macedonia is spreading and has extended to the country between Pshinia and Kriva. Numerous insurgent bands, armed with Martini rifles, are fighting the troops. Three cart loads of the killed have arrived at Palanka. The heads of the rebels are displayed in the streets of Palanka. A body of insurgents surrounded the troops in the village of Gherman. The troops have been resisting for five days.

Church Deacon Robs a Stage.

Ukiah, Cal., June 24.—David Oldham, a deacon in the Baptist church, has been arrested for robbing the Mendocino stage a week ago. He had as an accomplice a man named Hilton, who had confessed, implicating Oldham. The robbers secured $1,000 and the officers have recovered Hilton's share.

Turkish Ministerial Crisis.

Constantinople, June 24.—It is stated that owing to the sultan's rejection of some ministerial and administrative changes, Said Pasha tendered his resignation as grand vizier on Tuesday. The sultan declined to accept it. The coolness of their relations since is noticeable.

Military Censorship Over the Press.

Havana, June 24.—Senor Manuel Coronado, managing editor of La Discussion, has been arrested and imprisoned by military authorities.

EIGHTY MILES AN HOUR.

Successful Test of Electric Locomotives on Nantasket Beach.

Nantasket, Mass., June 24.—The second trial of electricity as a motive power on the Nantasket Beach division of the New York, New Haven & Hartford Railroad took place last night with as much secrecy as charterized the first tests. The result insures the success of the experiment. The trial last night was with an electric locomotive specially geared for speed, and the small party of officials who were aboard during the trip say that for three miles on the straightaway track between here and Hull the locomotive traveled at an average speed of eighty miles an hour. They claim that greater speed could have been attained had it not been for a hot box. Another electric locomotive was attached to a train of three passenger coaches and a heavy steam locomotive, the whole weighing over one hundred and seventy-five tons, and easily moved them at a rate of speed equal to that of a steam locomotive. The starting and stopping was especially prompt. The Consolidated officials are greatly pleased with the tests.

RAID WINNEBAGO RENTERS.

One Family Ejected, While Others Organize for Protection.

Pender, Neb., June 24.—Captain William H. Beck served notices on thirty renters occupying Winnebago lands last Thursday to vacate inside of three days. Fred Smith, a Flournoy company tenant, was visited Saturday evening at 5:30 o'clock by thirteen armed Indian police with directions from Captain Beck for him to immediately vacate. Smith resisted the police, whereupon they proceeded to load his household effects, turned out his stock and by physical strength succeeded in throwing Smith and his wife into the wagon. The party then started for the agency. A heavy rain and wind storm came up about 8 o'clock and the Indian police left Smith and his wife to the mercy of the raging storm. One of Smith's horses had given out, and, leaving his wife on the reservation, he started with the other animal for Pender. One hundred and fifty settlers occupying Flournoy lands on the Winnebago reservation and other renters held a meeting at Emerson, Neb., and perfected an organization for self-protection.

RIOT IN PRISON.

Italian Convict Armed with a Knife Starts a Free-for-All Fight.

Lincoln, Neb., June 24.—There was a free-for-all fight among convicts and guards in the penitentiary last evening. Scalesi, an Italian, had just been let out of his cell with others. Armed with a knife, which he had made out of scrap iron, he attacked another convict named Sullivan. Scalsei acted like a mad man, but notwithstanding his knife, he was worsted by Sullivan. The crazed Italian then turned on Guard Costello. The guard attempted to beat his assailant with a stool, but convict cut him across the stomach. About that time convicts, guards, and all joined in the melee, and many were badly injured.

FOR AN ALIBI.

Men Accused of Lynching Barrett Scott Will Rely on That.

Butte, Neb., June 24.—To-day the alleged lynchers of Barrett Scott take the stand to testify in their own behalf. They are expected to assist in establishing an alibi by declaring that they were hunting stock in the sand hills at the time of the lynching. This cannot be successfully denied, as in the neighborhood of the three defendants' homes there is a vast territory in which stock ranges and where white men are seldom seen.

Gathering at Chattanooga.

Chattanooga, Tenn., June 24.—The dedication of the big tent to be used for the international conference of the Epworth League, to be opened this week in Chattanooga, was one of the most impressive and tremendous services probably ever held in the south on any like occasion. The tent, with a seating capacity of 12,000, was filled, and 200 people stood outside unable to gain admission.

To-day the crowds will begin to arrive and by Wednesday morning 10,000 people outside of this state will be in the city. It is expected 15,000 will cover the total attendance outside of Tennessee, and the arrangements to handle the crowd have been made elaborately by the local committee.

Admires Our Warships.

Kiel, June 24.—Emperor William visited the San Francisco, flagship of the American squadron, here yesterday. He chatted pleasantly with Admiral Kirkland and with the other officers and expressed his admiration of the American warships present, and his acknowledgement of their participation in the Kiel fetes.

Hail Damages Illinois Crops.

McLeansboro, Ill., June 24.—This locality was yesterday visited by a terrific rain, accompanied by high winds and hail. Great damage has been done to the wheat, as at least one-third is uncut in this county. Hundreds of acres are now sown, and if cut at all it will have to be done with the sickle or cradle.

Big Attendance of Teachers.

Denver, Sol., June 24.—Arrangements are practically completed for the convention of the National Educational association to be held in this city in July and the indications are that it will far exceed in attendance any previous meeting of that organization.

Battleship in Trouble.

Toulon, June 24.—The French battleship Redoubtable, of 8,860 tons' displacement, is ashore off Cape Sepet She has signaled for assistance.

THIRTY WERE HURT ON A STREET CAR

SERIOUS ACCIDENT BT NEW BEDFORD, MASS.

While Going Down Hill The Car Breaks a Wheel and Is Dashed To Pieces—Thirty Persons Injured, Some Badly—Too High a Rate of Speed.

New Bedford, Mass., June 24.—By the breaking of a wheel on a Dartmouth and Westport street railway car yesterday afternoon thirty persons were badly injured. Some of them may die. Following is a list of the injured:

John J. Ryan, right arm broken, right collar-bone broken, and head of the small bone of the leg dislocated.

Amie Cavallo, wound in forehead and right temple.

Antone Cavallo, wound over right eye, cuts on leg.

Miss Abbie Sullivan, had flesh wound on left ankle.

Lizzie J. Nickerson, scalp wound and wound on left arm.

Sadie Nickerson, bruises on right arm and leg.

Delia Remillard, Woonsocket, R. I., bruises on right arm and leg.

Emma O. Bowles, broken bone right foot.

M. M. Bowles, injured right shoulder blade.

Miss Ida Tripp, bruised shoulder, knee and face.

Abram Tripp, bruised right side of chest and sprained wrist.

Albert Tilton, hip broken.

Annie M. Redding, cut and bruised hands and face.

Dr. W. H. Webber, nose broken and face cut.

Harry Dodge, face cut and badly bruised.

George Dodge, face badly cut.

Mr. Walter Rounsville, hip injured and badly bruised.

Frank Jenkins, cut and bruised badly about the face.

The accident happened to a car that was running at a high rate of speed down Smith's Mills' Hill, one of the steepest grades on any street railroad in New England. When part way down the hill a forward wheel broke, the car smashed into a stone wall and tipped over. Many of the passengers were crushed under the car. All of the passengers say that the car was going at a terrific speed; that they never rode so fast before, not even on a steam railroad. P. J. Ryan, who was probably fatally injured, says he thinks the car was going at fully eighty miles an hour.

ESCAPE INTO CANADA.

Rainy Lake Bank Robbers Flee from the Sheriff's Posse.

Duluth, Minn., June 24.—According to a message which was received by Deputy Sheriff Amos Shepherd there has been a fight between a party of officers and the Rainy Lake bank robbers. After the exchange of a number of shots the men made good their escape, striking out for the Canadian country. After leaving the bank with the money they had obtained the men followed the Tower road for a long distance and finally struck off towards Crane lake, one of the wildest and most inaccessible points in Ithaca county. The officials of the Canadian country have been notified to look out for the men and there is but little chance of the robbers geting away.

W. W. Butler, the cashier of the bank of Rainy Lake City, who was held up and slugged by the two men, says the robbers did not get more than $5,000 at the outside, instead of $30,000, as at first reported.

Giant Powder Expirdes.

Hazleton, Pa., June 24.—Two thousand kegs of giant powder stored in Fisher's mills, at Krebb's station, exploded Saturday night. The very mountains were shaken from base to summit, and people living at Catawassa, two miles distant, were thrown from their beds. There was no one about the mills as far as is known, and the cause of the explosion is a mystery. It is thought, however, that some tramps effected an entrance to the building and in some way ignited the powder. The people in the surrounding towns at first thought that an earthquake had taken place, and the wildest excitement prevailed. No casualties are reported.

Grasshoppers Killed by Microbes.

Denver, Col., June 24.—Prof. S. P. Gillette, entomologist of the state agricultural college, after an examination of the fluids of some of the millions of grasshoppers that have died near Brighton, finds that they are dying not from the attacks of a parasite insect, but from a contagious disease caused by minute germs similar, but not exactly like the germs that cause such diseases as cholera, anthrax, tuberculosis, etc., in higher animals. It is hoped this disease will destroy the greater proportion of the grasshoppers that threaten to be a scourge in eastern Colorado, Nebraska, and Kansas this season.

Charged with Selling His Prizes.

Philadelphia, Pa., June 24.—Walter C. Sanger, the fast bicycle rider and member of the Spalding team, will be suspended to-morrow by Chairman George D. Gideon, of the L. A. W. racing board, pending an investigation into his amateur standing. The charge against Sanger is that of selling his prizes, which he denies.

Fatal Duel for a Senorita.

Catorce, Mexico, June 24.—James Atkinson, an American ore buyer, and Francisco Hernandez, a Mexican ranchman, fought a duel near Cedral, east of here, yesterday, in which Atkinson was killed. The two men were devoted to the same senorita and decided to settle their love contest with pistols. The American fired three shots at his antagonist, but none of the bullets took effect. Hernandez's second shot struck a vital part of Atkinson's body.

MAN AND WIFE SLAIN BY SIX MASKED MEN

BRUTAL MURDER NEAR BARBOURSVILLE, KY.

Hebrew Beddlers Cut Down By Assassins Who Had Their Faces Covered Up—Chicago Cashier Killed By a Robber After a Brave Fight To Defend the Cash.

Barboursville, Ky., June 24—Gus Loeb, and his wife, Julia, Hebrew peddlers, were murdered in Harlan County yesterday between Harlan Court House and Harrowgate, Tenn., by six masked men who left no clue.

Chicago, June 24.—C. R. Birch, receiving teller for the West Chicago Railway company at its Armitage avenue car barns, was shot four times by a masked robber at 2:30 o'clock yesterday morning and died three hours later. At the time of the shooting Mr. Birch was in his office at the barns at Armitage and Milwaukee avenues making up his accounts. He had just placed $1,000 in paper money in the safe and was counting his smaller currency when a man wearing a mask pushed open the little door of the cage, which had been left unlatched, and leveling a revolver at the cashier, said, "Hands up!" Instead of complying, the cashier reached for his revolver, and the robber shot him twice. Mr. Birch fired two shots, but it is not believed they took effect. The murderer secured between $300 and $400, but overlooked a drawer containing $4,000. He then made his escape.

Working on the theory that the attack was planned by persons having an intimate knowledge of the company's affairs, officers early began searching for discharged employes. John Klein was the first to come under police surveillance. He was arrested during the evening and was taken to West North avenue police station. No accusation was made against him, but he will be held for investigation. Klein was discharged from the company's employ about three weeks ago.

LINCOLN HAS A BIG FIRE.

Originates in a Drug House and Causes $150,000 Damage.

Lincoln, Neb., June 24.—Lincoln firemen battled from midnight Saturday night until daylight yesterday with the most stubborn and costly fire that has visited the city for over three years. It had its origin in the H. T. Clarke brick four-story and basement wholesale drug house, and thirty minutes after the alarm was beyond control, though the firemen managed to confine it to the one building. Two sections were totally destroyed, with a loss on the building of $60,000. Best estimates make the total loss on building and stock, $125,000 to $150,000, well insured. The origin of the fire is a mystery.

Japan Having Trouble.

Yokohama, June 7.—(Steamer Coptic, via San Francisco, Cal., June 24.)—The latest Corean developments are justly regarded with grave anxiety. Until a few weeks ago the dominating influence of the Japanese was securely maintained, but since the announcement of Japan's submission to the recent demand of Russia and her allies, the Coreans have convinced themselves that Russia alone is to be feared and courted, and that they may safely repudiate their pledges to the island empire. Little deference is paid to Count Inonye and the government leaders are seeking to ingratiate themselves with the Russian diplomatic agent by every conceivable device.

Whitecaps in Ontario.

Ottawa, Ont., June 24.—At Ellisville, near Gananoque, an old man and his son have been boarding for some time with a woman of whose conduct the community does not approve. A party of disguised men surrounded the house last evening and administered a coating of tar and feathers to the three people. The son was mounted on a rail and ridden to a mud-pool and dropped in. The woman was accorded twelve hours in which to leave the place, but she has not obeyed the warning. The two men have fortified their home and liberty by purchasing firearms, and say they will shoot if they are again interfered with.

Cobb Is Chosen President.

Duluth, Minn., June 24.—The semi-annual meeting of the State Federation of Labor was held here yesterday and was attended by about 100 delegates, representing the unions of the principle cities of Minnesota. The most important resolution passed was one condemning the Supreme Court for its action in the Debs case, and hearty sympathy for the American Railway Union leaders was voted unanimously. A resolution declaring for free silver was debated at length, but was tabled and a motion to reconsider was sidetracked. E. R. Cobb, Duluth, was elected president.

Still Wants Annexation.

Honolulu, June 17.—The first legislature under the republic was called together June 11. The president's message was read. It deals with many questions of local interest. In speaking of annexation to the United States the president said: "While the annexation of this country to the United States of America has not yet been accomplished, it still remains the policy of the government. Its consummation will be earnestly sought, with an abiding faith that such a result will be of great and lasting benefit to our country."

Weekly Bank Statement.

New York, June 22.—The weekly bank statement shows the following changes: Reserve, decrease, $1,414,650; loans, increase, $4,950,500; specie, decrease, $394,000; legal tender, increase, $390,000; deposits, increase, $5,643,000; circulation, decrease, $52,000. The banks now hold $36,544,250 in excess of the requirements of the 25 per cent rule.

REPORTS OF CUBAN SUCCESS.

Artillery Belonging to Spanish Army Falls Into Their Hands.

Tampa, Fla., June 24.—Advices by steamer from Havana are that all the artillery possessed by the Spanish forces in the eastern department have fallen into the hands of General Antonio Maceo. June 19 an entire battalion of volunteers deserted to the insurgents, with all their officers, excepting the colonel. The only remaining company of artillery left Havana June 21 for Matabano, and no regular troops now remain in Havana.

Sensational Story Denied.

New York., June 24.—Vernon Davis, the assistant district attorney, was seen at his house last night in reference to the fire bugs who, it is alleged, have been firing buildings and securing the insurance money. Mr. Davis said there were absolutely no new developments in the case. He scouted the statement published in one of the evening papers that a member of the gang was employed in the district attorney's office. He was equally emphatic in denying a story published in one of the Sunday papers which quotes "Fire Marshal Mitchell" as saying that sevwere employed in his office.

Express Messenger Murdered.

Dallas, Tex., June 24.—The Texas & Pacific westbound cannon ball train last night brought in the remains of Express Messenger F. E. Cunningham, who was found dead in the express car at Forney, eighteen miles east of here, pierced by three pistol balls. There is no clew as to the mysterious murder. The crime was committed between Terrell and Forney, as the messenger was alive at Terrell and talked with the agent there, Nothing was missed from the car.

Accident on a Lake Steamship.

Chicago, June 24.—The whaleback steamer Christopher Columbus made its first excursion of the season to Milwaukee last Saturday. On the return trip, while off Waukegan, a valve connecting one of the vessel's boilers with the steam pipes leading to the engine burst, causing the death of two firemen and scalding more or less seriously ten others of the passengers and crew. The accident is said to be due to an attempt to attain too much speed.

The Kansas Silver Conference.

Topeka, Kan., June 24.—The indications are the attendance at the free silver republican conference that is to meet in this city Tuesday will not be a great success. Political leaders in the party, regardless of their opinion on the silver question, have discouraged the movement and the majority of republican papers in the state have advised republicans not to attend.

Warships Gathering.

St. Johns, N. F., June 24.—The French flagship Le Clocheterie has arrived here from St. Pierre. It is supposed that its visit is due to a bill before the legislature dealing with the French shore question, which passed Saturday. The French gunboat Huzzard is also here, as wellas the English flagship Cleopatra and gunboat Buzzard.

Lightning Damages a Cottage.

Yankton, S. D., June 24.—Lightning damaged Yankton College science hall several hundred dollars by boring a hole ten feet in diameter from roof to cellar. Some stock was also killed here. The storm was the most severe for a nunmber of years, rain falling steadily for eight hours.

KILLED BY SCORES ON A CITY'S STREET

FEARFUL LOSS OF LIFE AT SANPAULE, BRAZIL.

A Whole Carload of Dynamite Exploded and Fifty People Lost Their Lives While Many Others Were Injured—Big Fire Rages at Vichnee Voltchok, Russia.

Beunos Ayres, June 24—A carload of dynamite exploded Saturday in the streets of the town of San Paule, Brazil. Fifty persons were killed or wounded and many houses were destroyed.

St. Petersburg, June 24—Over one hundred houses have been destroyed by fire at Vishnee Volotchock, seventy miles from Tver on the Sena. Many inhabitants perished and the loss is extensive.

EXCITED BY MORA CLAIM.

Inflammatory Statements Published in the Madrid Newspapers.

Madrid, June 24.—The Madrid press is publishing inflamatory statements as to the reported demand of the United States for the settlement of the Mora claim. The impression apparently is that Havana is to be seized and held unless the Mora claim is paid. The Madrid newspapers say editorially that President Cleveland's recent proclamation against Cuban filibusters in the United States was to be followed by the payment by the Spanish government of the Mora claim. The papers take the position that under this understanding the United States authorities will not exert themselves to carry out the president's proclamation by a suppression of the filibusters until Spain has actually paid the claim. There is entire silence on the subject in government circles, and the excited statements of the Madrid press are not credited among officials.

First to Pass Through the Canal.

New York, June 24.—The big Hamburg-American liner Palatia, which arrived this morning from Hamburg, had the honor of being the first ocean steamer to pass through the new Kaiser Wilhelm canal. The Palatia had on board Chancellor Hohenlohe, Dr. von Boetticher, imperial secretary of state for the interior; Herr von Koeller, Prussian minister of the interior; Baron Marshall von Bieberstein, imperial minister of foreign affairs; Count Eulenberg, and other prominent persons. The passage of so large a steamer from Hamburg to the Baltic sea practically demonstrated the successful termination of the work in Germany's great canal.

False Reports of Destitution.

Holdredge, Neb., June 24.—A report was sent to the governor Wednesday that 700 people were destitute in Frontier and Perkins counties and that if food was not sent them there would be trouble. W. N. Nason of Omaha, of the state relief commission, has just returned from a trip of investigation through these counties and says he found no serious destitution that local committees could not attend to. Crops look fine and every one is hopeful of abundant harvest, he says. The citizens of these counties express great indignation at these false reports.

New Jersey Ship Canal.

Philadelphia, June 24.—A public movement has been inaugurated for a deep water canal from this city through New Jersey to Sandy Hook. The canal commission which has been investigating the subject for the last year has just reported, estimating the cost of the excavation at $25,000,000. An effort will be made to interest the national government on the ground that in time of war a system of interior waterways along the Atlantic coast would be of great strategic value, while in peace its commercial value could hardly be overestimated.

To Open Another Reservation.

Washington, June 24.—Judge Lamoreaux, commissioner of the general land office, has prepared a proclamation, to be submitted to the president for approval, opening for settlement the land of the Uncompahgre Sioux Indians in Utah. The reservation contains about 220,800 acres, 46,080 of which have been surveyed.

Many Persons Drowned.

London, June 24.—A dispatch to the Daily News says that severe thunderstorms have occurred in Austria-Hungary, accompanied by floods in which many persons were drowned. The crops were severely injured. Prince Ratiber's villa at Buda-Pesth was burned to the ground, the fire having been caused by lightning.

Heavy Sentence for an American.

London, June 24.—Mendal Howard, the American who was arrested April 20 for having in his possession a quantity of engraved plates and other material for forging notes, was found guilty of forgery and sentenced to ten years' imprisonment at hard labor.

Mexican Postage Reduced.

Washington, June 24.—Word reaches here that President Diaz of Mexico issued a decree on June 4 reducing letter postage rates from 10 to 5 cents on letters mailed inside the republic and from 5 cents to 4 cents for local letters from the United States.

Indiana Silver Men Will Wait.

Terre Haute, Ind., June 24.—Senator Turpie is here for a conference with Senator Voorhees. Senator Turpie says there will be no convention of Indiana democrats who are in favor of free silver prior to the regular democratic convention next June.

REV. W. C. WHITFORD TALKS TO PUPILS

Adjournment.

On Sunday evening at the Congregational church, President Whitford preached the baccaulaureate sermon and was accorded a large hearing. The music by the choir of the church gave general satisfaction. The following is a synopsis of the resident's able production:

Christianity In the Higher Schools.

Text: Proverbs, 4:7, "With a getting get understanding." The lowing extracts show the drift of the sermons: Like the physical forces and human life, the higher studies, particularly those of the academy, the college and the professional school, have their immaterial, final, Godward side, as well as their immediate, earthward ones. In the watch you find beneath the hands on the face, and central among the moving wheels, the hidden coiled spring, which furnishes the impelling power. The mathematics present the ideas of the infinite mind, as traced all through the structures of the material universe, determinating its myriad forms, and fixing the interva's of separation between its minutest parts in their orderly arrangement. The natural sciences treat of the operations laws, and uses of the visible substances about us and remote in space, and yet as the manifestations of an ultimate conserving energy, causing their innumerable changes, as well as their subsistence in all time. The literature of every nation is the record of the natural evolution in the purposes, sentiments and experiences of the human spirit as allied to and representing the divine.

Our philosophical and religious topics discuss the principles and the contions essential to the fullest present developments and the future well-being of the individual and the most complete government of the highest civilization of society in all the legitimate forms, but these principles and conditions as established and revealed by an all-wise and ever holy authority which dwells in the spiritual and eternal realm. Then, how necessary to an adequate compr h nsion and a practical application of these branches of learning, is a thorough instruction in those recondite and supernatural forces and facts which constitute their only substratum?

How can this attainment be reached without an attentive study of the Gospel of Christ, in regard to both its subject matter and its unequaled influence over conscientious and devout men? How needful is such a culture to a youth in his impressible, formative and life-planning period, especially while he is acquiring a knowledge of those secular, wordly studies which are taught so assiduously in our higher as well as in our elementary schools.

Besides, Christianity supplies the most valuable collection or truths ever known by man. It reveals to them most clearly the real design of life, the properties of his mational being and the definite relations which he sustains to the other members of the race with perfection of insight and with precision of statement, it describes not only the obvious, but the inner-most workings of the soul in all of its stages of moral and religious experiences. It positively and distinctly asserts all the essential precepts for shaping an upright character, and performing beneficent conduct. It actually defines the purposes and state of the heart most conducive to our highest well-being. The fullest knowledge which we have of the origin and control of all created objects by divine power it furnishes with reitorated phases. Our governing faiths as to the existence of beings in the other life, as to their intimate connections with the affairs of this world, and as to their degrees or stages of intelligence and moral condition, are all based upon its reliable teachings. No where else can be found so many and such satisfactory answers to the most persistent and deepest felt questions of the human mind, like those referring to the nature of sin, its actual results to be realized in the hereafter, and the possibility of its complete forgiveness, and like those who consider final rewards of obedieece to the commands of God and of a living trust in a crucified Redeemer.

Unexampled are these most precious ideas and beliefs in their ability to arouse, enlarge, invigorate and harmonize the powers of the human soul. They form the profoundest judgments, produce the happiest feelings, and determine the ultimate choices. In accordance with their suggestions, we unreservedly submit the fashioning of our earthly career and the eternal destination of our spirits to the guidance and saving mercy of our heavenly Father. The superlative worth in the instsuctions of the class room, to develop and establish the brief perfect states of our manhood and womanhood in the present life may hence be seen at a glance. Another proof of the indispensable need of christian teaching in our institutions of learning, as well as in our churches and Sabbath schools, consists in the fact that scriptures present the most effective system of motives and sanctions found in this world for the formation of any stable morality. The consciousness that the all-seeing eye of God observes our acts, is said to exercise a greater degree of restraint over our impulses and desires to evil than any other incentive.

Our sense of wrong-doing is vastly quickened by the recorded visitation, without respect of persons, of prompt and severe penalties upon the transgressors. A perfect standard of a moral life is furnished, not in abstract ideas, but in the authoritative example of Jesus Christ, a living man. A clear and imperative enunciation of even a well known duty tends to secure its willing discharge. The laws governing our homes, society and a nation, have the surest and readiest sway over our own wills, if enforced by the undoubted requirements of the Supreme Ruler The dreaded infliction of future endless pain and misery for the unpardonable wickedness of this life, often curbs the otherwise unbridled appetites and passions and cauterizes the most artful inducements to dishonesty and crime. The purely religious culture attained in prayer, in songs of praise to the Holy One, in diligent examination of the sacred Word, and in relying upon the hope of a blessed immortality, vitalizes powerfully our consciences, and eventuates oftenest in righteous behavior.

The annual sermon, before the Christian Association of Milton college was delivered at the Seventh Day Baptist church Friday night, by Rev. Webster Millar of Waukesha. It was a logical presentation of truth and was listened to by a large audience. The music which was appropriate and well rendered, was in charge of Miss Charlotte Maxson

BOARD OF REVIEW IS IN SESSION.

Errors In the Assessments are Being Corrected and Complaints Listened To.

The "board of review," consisting of Mayor F. S. Baines, City Clerk A. Badger, Assessors Henry Hemming and D. W. Watt, held their first meeting today in the city clerk's office. The duties of the board are to review the work of the assessors, correct errors, and listen to any complaints from property owners in relation to valuations of property which may be made. The board will be in daily session for a week or more.

The Thunder Snake.

Already a good many specimens of the thunder snake have made their appearance in Louisiana. This curious reptile no doubt belongs to the glass snake family, which is, properly speaking, a true lizard. In color it is quite a beauty, being composed of alternate rings of red and white, and the length is anywhere from six to eighteen inches. The peculiarity of this snake lies in its ability to reproduce lost parts of its body. The negroes say that these snakes fall to pieces whenever it thunders, but that they afterwards "go back together again," so that it is practically impossible to destroy them.

FIRST CENTURY RUN BY LOCAL CYCLERS

J. G. DeLONG AND O. SUTHERLAND MADE IT YESTDRDAY.

Their Trip Was to Oconomowoc and Back—Many Riders Take Advantage of the Fine Weather To Take Spins To Neighboring Towns—Wheeling Notes.

Two Janesville wheelmen made the first "century run" of the season yesterday, they being J. G. DeLong and Alderman Orion Sutherland. They started from the corner of Milwaukee and East streets at 4:25 o'clock, a. m. bound for Oconomawoc, a distance of fity-one miles. They rode the whole distance and returned on their wheels, after going eight miles out of their way, making the total distance covered, 110 miles. They arrived at Whitewater at 6:10 and after staying an hour left for Palmyra, reaching that place at 8:05. Leaving Palmyra they were misdirected and went eight miles out of their way, arriving at Oconomowoc at 11:30. After eating dinner they left for home at 2:10 o'clock, arriving in Janesville at 7:05. They are the first Janesville riders to make a century run—one hundred miles or more in twenty-four hours.

It was a great day for the cyclers, for when the wheelmen awoke early in the morning, the golden sunshine was not dimmed by so much as one cloud. A cool northerly breeze was blowiug, and the pure dry air was just right for cycling. Lovers of the wheel were to be seen as early as 4:15 o'clock in the vicinity of Main and Milwaukee streets ready to start out.

Rode to Delavan Lake.

Five riders left the Myers House corner at 6 o'clock in the morning bound for Delavan Lake a distance of twenty miles. They made the run in just two hours arriving at Highland Park at eight o'clock. After spending the morning at the Lake, they left for Delavan where dinner was obtained and after a two hours, rest in the city, they left at 2:15 arriving home at 4 o'clock. This being the first trip made by two of the cyclers they had "that tired feeling" which was plainly apparent when they got home. The party included H. F. Lincoln, R. J. Bear, J. L Fletcher, W. A. Buob and R. D. Morse.

Two members of the Arrow Cycling Club, C. W. Bliss and B. L. Watt, left the city Saturday morning at 5 o'clock and arrived at Camp Collie, on the shores of Lake Geneva, a distance of thirty miles, in two and three-fourths hours. While out sailing the wind died down and they remained on the water an hour and a half, and it then being too late to return home, they left for Harvard, where they caught the "vestibule."

NOTES FOR THE CYCLERS.

Delavan, an explosion was heard. The rear tire of Ellis's wheel had broken, which at once put a stop to riding. They walked into Delavan where Ellis loaded his wheel on a freight train bound for Clinton, and caught the vestibule, returning home at 9:25. Wisner returned on his wheel.

FRANK SANNER took a spin to Milton in the morning, crossing over the Junction and down Milton Avenue making the eighteen miles in the phenominal time of one and one-half hours. This included a five minute stop at Milton.

A TANDEM passed through the city yesterday, at a two minute clip It was ridden by F. H. Blodgett and his sister of Beloit who were on their way home after taking dinner in the city.

CHARLES ELLIS and R. E. Wiener left at 8 o'clock bound for Delavan. Everything went well for a time, but when they were within two miles of

MEMBERS of the Arrow Cyling club are figuring on a picnic in the near future, for the members of the Rockford Cycling club.

THE appearance of the cyclers last evening indicated that some of them must have been out in the rain.

FRANK JACKMAN pumped his wheel a distance of fifty-three miles, taking in a number of the surrouading towns.

THREE Evansville boys rode into the city yesterday on their bikes, returning home on the vestibule.

M. C. DOLBEE took the prairie road for Beloit yesterday morning, returning home soon after dinner.

WHEELS were numerous at the up-river resorts yesterday, and a number of accidents are reported.

BELOIT cyclers passed through the city last evening on their way home from Edgerton.

SOME RACE TRACK GOSSIP.

A NUMBER of the boys are practicing between this city and Crystal Springs. They no doubt have their eye on the bicycle prize to be given by the Traveling Men at the picnic July 6.

IT was found by actual count that there were forty-two rigs upon the fair grounds at the last race-meet, and with the admission fee placed at ten cents, there is little reason why the crowds should not increase.

WHILE practicing on the track, T. M. Nolan accidentally caught his shoe string in the chain, throwing him with full force to the ground, bruising his shoulder and otherwise injuring him.

LOCAL riders with their trainers may be seen these fine evenings, trying a two minute clip at the race track.

No little credit is due J. D. De Long for the success of the last race meet of the Arrow Cycling club, and it was mainly through his untiring efforts that the meeting was a success.

THE man who does the handicapping at the Traveling Men's picnic, should know his business and have his eyes open.

HORSEMEN still complain that riders must keep off the track until 5 p. m., or they will not be allowed there at all.

AT the next race-meet a one-mile race between local lawyers will be a feature.

PIONEERS TO PICNIC TOMORROW

Everything Is In Readiness For The Early Settlers Outing.

The only thing that will prevent the Early Settlers Society and their families from enjoying the grandest day in their history will be the scant liability of inclement weather. People from every nook and corner of the county are preparing to go and before noon Crystal Springs Park will resemble a minature World's Fair. Every detail concerning the arrangement of the program for the day has been attended to, and the committee in whose hands the matter was placed have not left a stone unturned to make it the most enjoyable affair possible. The steamer Columbia will leave the dock at 1:30 and every hour during the afternoon. Twenty-five cents is the charge for the round trip, while those prefering to go by road will be charged ten cents admission at the gate. Don't fail to attend this picnic, it is the event of the season.

LAND MARK TO BE TORN DOWN

A. C. Kent's Building On South Main Street Has a History.

A. C. Kent expects to commence work on his new block at the corner of South Main and Court street the first of August. The old brick building is to be removed. This is one of the historical landmarks of the city, being one of the first brick buildings erected here, and has been used for many purposes. During the latter part of President Pierce's administration it contained the postoffice. Dry-goods, hardware, books and nearly everything in the line of merchandise, has been sold in the building. A handsome and modern brick building is now to take its place.

ROCKTON MAN DIES BESIDE THE TRACK

FATAL ACCIDENT NEAR BELOIT YESTERDAY.

John Maloney Run Down By a Passenger Train and Instantly Killed—Did Not Hear the Warning Whistle and the Engineer Couldn't Stop The Train in Time.

Death rode on the pilot of the noon St. Paul train that pulled out of the Janesville yards for Beloit and Rockford yesterday, for just out of Beloit the passenger run down and killed John Maloney, the accident occurring near "the willows."

Mr. Maloney whose home was in Rockton was evidently on his way there and had sat downion the track. As the train pulled out from the crossing the warning whistle was loudly sounded, but the man did not heed and seemed to be paralyzed. The train rushed on him, its wheels sliding along the track, and struck him on the side throwing him down the embankment and evidently breaking his neck as life was exstinct when the train was stopped. The remains were sent to Rockton.

The train was in charge of Engineer Alex Gosselin of Janesville, and Conductor L. W. Carleton. Every effort was made to stop the train, but although the air brakes were applied and the engine reversed, the weight of the coaches caused the train to slide far enough on the locked wheels, to strike Maloney.

HAD A FINE TIME AT AFTON

Janesville Delegation Returned From the Flag Raising Tired But Happy.

It was quite late Saturday night before the Janesville delegation returned from Afton where they went to participate in the flag raising.

The program was of exceptional interest and was splendidly rendered. J. B. Humphrey presided at the exercises in a peculiarly graceful manner and the numbers assigned were as follows:

Selection.....Band
Song—Our Flag.....Quartette and School
Address of Welcome.....David Throne
Vocal Solo—Our Flag is There.....
.....E. O. Kimberley
Address.....Gen. Lucious Fairchild
Recitation—G. A. R. Boys.....A School Boy
Address.....Hon. Pliny Norcross
Exercise—Flags of all Nations.....School
Vocal Solo—In Dixie's Sunny Land.....Weirick
Address.....Dr. J. B. Whiting
Song—Freedom's Flag.....School
Address.....Prof. L. E. Gettle
Recitation—Fourth of July.....A School Girl
Song—America.....Audience
Address.....Rev. J. D. Cole
Recitation—Our Flag.....Three School Girls
Address.....F. P. Starr

A very large crowd was present and the dinner served reflected great credit on those who prepared it. When the flag reached the top of the staff a mighty cheer went up and the program printed above was then rendered.

CROWDS AT THE RIVER RESORTS.

Both the Parks Were Well Patronized All Day Yesterday.

A great many people took advantage of the fine weather yesterday and took the boats for the up-river resorts, both the Mayflower and Columbia being well patronized during the day. At Crystal Springs Park, Smith's full orchestra furnished excellent music, while the Concordia Singing Society rendered a number of selections in German. At Mayflower Park, the chief attraction was the Malony's Wedding Company which gave an excellent entertainment, considering the short time they had to arrange for it.

CURES OTHERS

To build up both solid flesh and strength after grip, pneumonia, fevers and other prostrating diseases, there is nothing to equal Dr. Pierce's Golden Medical Discovery.

PROSTRATION FOLLOWING GRIP.

MRS. GARRETT.

MRS. REUBEN GARRETT, *King George C. H., Va.*, writes: "I was taken with grip which finally resulted in pneumonia. Was prostrated for three months. Had a terrible cough and was emaciated and very weak. Was fast drifting into "quick consumption." The doctor gave me medicines all the time. I grew weaker. He advised cod liver oil emulsion. I took two bottles of it without any relief. I had pain in my left shoulder and back. I wrote you, and you prescribed your 'Golden Medical Discovery.' I took only one bottle before I felt better. After two bottles I could sit up, and felt I had been saved from the grave. I increased rapidly in flesh and strength."

A Soft Answer.

Mrs. Newcomer—Good morning! Is this Mrs. Teachem's private school?

Mrs. Blinks (hotly)—Indeed it isn't. This is a private house, and these are my own children.

Mrs. Newcomer (hastily)—I thought it must be a school, because the children looked so cultivated, and educated, and scholarly, and— and refined, you know.

Mrs. Blinks (genially)—Oh, yes, of course. Come in and sit down. Lucy, call in your six brothers and five sisters and introduce them to the lady, while I get ready to go around with her and show her where Mrs. Teachem's school is.—N. Y. Weekly.

Narcoti-Cure

CURES THE TOBACCO HABIT IN 4 TO 10 DAYS OR MONEY REFUNDED.

Use All the Tobacco You Want Till Your "Craving" is Gone.

Narcoti-Cure is the only remedy in the world that acts directly on the nerves and drives the nicotine from the system in four to ten days. It leaves the patient in better health than before taking, and is warranted free from all injurious ingredients

Narcoti-Cure is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away tobacco forever.

Narcoti-Cure is sold at the uniform price of $5 a bottle, and one bottle cures.

Money refunded if a cure is not affected when taken according to directions.

PROF. W. N WAITE,
Of Amherst, Mass. Chewed Tobacco For 46 Years, and Was Cured by Narcoti-Cure.

AMHERST, Mass., Feb. 8, 1895.
The Narcoti Chemical Co.,
Springfield, Mass.

Gentlemen:—Replying to yours of the 1st would say that I have used tobacco for 46 years and of late have consumed a 10 cent plug a day, besides smoking considerably. I commenced to use tobacco when I was only 11 years old, and have never been able to give up the habit until I took Narcoti-Cure, although I have tried other so-called remedies without effect. After using your remedy four days all "hankering" for chewing disappeared and in four days more smoking became unpleasant. I have no further desire for the weed, and experienced no bad effects, whatever. I am gaining flesh, and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say use Narcoti-Cure.

Yours truly, W. N. WAITE.

If your druggist is unable to give you full particulars about NARCOTI-CURE, send to us for Book of Particulars free, or send $5 for a bottle by mail.

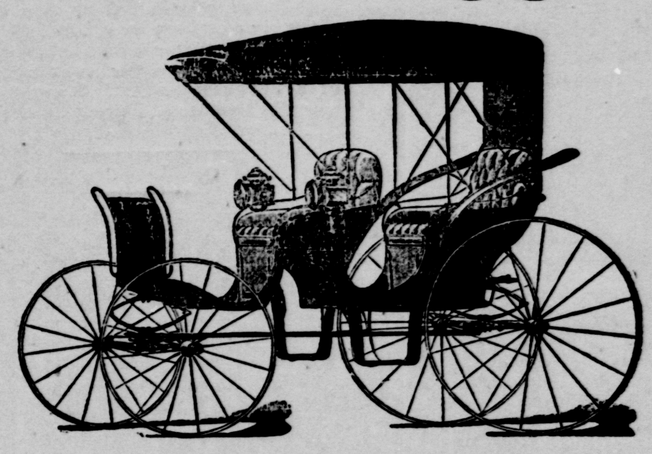
In favor of the

Gay - Buggies,



Of Which We Placed a $3,000 Stock In Our Repository June 1st.

In the first place they are light, very strong, best material only being used, beautiful in finish and yet are absolutely the **cheapest** vehicle on the market.

We offer a Road Wagon,

Either end or side spring, the best in the world, for **$35.00**. Can you equal it?

WE ALSO OFFER A FIRST CLASS SURREY FOR $70.00,

The cheapest of its kind ever brought to the city. Every other buggy in this large stock in proportion, We intend closing out this stock within a few weeks, if you want a buggy and want it cheap, we'll sell you sure. THIS DAY IN HISTORY

JEROME.

1314—Battle of Bannockburn.

1497—John and Sebastian Cabot discovered North America.

1753—William Hull, American soldier, born in Derby, Conn.; died 1825; surrendered Detroit to the British.

1763—Marie Josephe Rose Tascher de la Pagerie, later Beauharnais and then empress of France, born on the island of Martinique; died 1814. Josephine removed to France at an early age and became heiress to an aunt's fortune. She married one of the polished French noblemen, and they separated for a time but were reconciled. Her husband, Viscount de Beauharnais, was executed under the Jacobins, and Josephine only escaped by the sudden fall of Robespierre. Through the influence of the republican leaders, Barras and Tallien, the fortune of De Beauharnais was restored to her, and she became a leader of fashion at the capital. As the wife and empress of Napoleon she exerted great influence in conciliating the royalists and reviving the court splendors of the old regime.

1813—Henry Ward Beecher born at Litchfield, Conn.; died 1887.

1833—John Randolph of Roanoke died in Philadelphia; born 1773.

1860—Prince Jerome Bonaparte, ex-king of Westphalia, died near Paris; born 1785.

1894—President Carnot of France assassinated.

ONLY A SEA TURTLE

But It Aroused the Grocer to Action and He Shot Quickly.

A big gren sea turtle was responsible for all the excitement in the neighborhood of Preston and Camp streets, Louisville, Ky., the other morning. The turtle was the property of C. L. Hoffman, a grocer on the corner of Preston and Camp streets. Some days ago during the rain Hoffman saw a shower of turtles fall from the heavens. The turtle that aroused the neighbors was not one of these. It was a turtle shipped from the seaboard. It was an immense leathery creature about three feet across the back. Hoffman had a big tank made for the turtle, and put in about two feet of water. Saturday night some one in the store turned on the water, and filled the tank to within a few inches of the top. Hoffman lives upstairs over the store. He had been asleep probably two hours when he was aroused by noise. He jumped up out of bed and seized his pistol. As he was pulling on his clothes he heard a startling succession of noises that were enough to rouse the dead. They sounded as if two or three men were scuffling over the floor and tipping over barrels and boxes in their struggles. In the darkness he could not see nothing, but he got a line on the direction from which the noise came, and fired. He fired again and again, until he had emptied his revolver. By this time all the neighborhood had been aroused with a startling suddenness. They concluded that some dire tragedy was being committed. They poked their heads out of the windows, and as they saw Officer Manly hurrying down the street with his club and pistol in hand they were certain that the deed was a bloody one. Officer Manly rapped at Hoffman's door, which was quickly opened. Mr. Hoffman stood before him, pistol in hand.

"What's the matter?" demanded the officer.

"I think about six men have been killed here," answered Hoffman, rubbing his eyes.

"Light a lamp; let's look into this thing," said the officer. A lamp was quickly lighted. As the light burst out a scene of disorder greeted the crowd. Boxes and barrels were scattered about in great confusion. In the midst of them was the big turtle, with four gaping wounds in different parts of its body.

NIAGARA WENT DRY.

Congressman Lockwood of Buffalo Remembers the Time.

Congressman Lockwood of Buffalo says that within his recollection the great waterfall at Niagara was suspended, and that many people walked over its rocky places unshod. The New York Evangelist, in an interesting account of this miracle, says it was wrought in 1848, during the month of March. To be exact it was on the morning of March 29, 1848; and for several hours the wonderful torrent did cease to flow, and the river ran dry. The preceding winter had been a severe one, and the ice which had formed in Lake Erie was of phenomenal thickness. There came on March 27 a sudden and exceedingly warm spell of weather, which melted the snows, and then a warm rain poured down in torrents during the entire day of the 28th of March. The ice was loosened and a strong east wind drove it far out on the lake during the night. But at sunrise on the 29th the wind came from the west, and, as the sailors say, it was "blowing great guns." This terrific gale drove the immense mass of ice into the mouth of the Niagara river, where it was gorged and piled up from shore to shore, hermetically sealing the river and damming the waters back into the lake. Thus it happened that Niagara river ran dry, its falls became bleak, barren rocks, and its mighty thunders were put to sleep. Within four or five hours tiny streams of water began to trickle through the gorge. The tremendous power back of these streams accelerated their flowing, and in a short time the ice dam gave way, and there never was such a wild, roaring, mad flood in Niagara before or since; and thus the cataract became itself again.

Appearance of the Musk-Ox.

The appearance of the musk-ox is so odd and striking that when once seen it is seldom forgotten. You see an oblong mass of tremendously long brown hair, four and a half feet high by six and a half long, supported upon wide hoofs and very short, thick legs, almost hidden by the body hair. There is also a blunt and hairy muzzle, a pair of eyes, a pair of broad, flattened horns that part like a woman's hair and drop far downward before they curve upward—and that is all. The mass of hair is so thick that as the robe lies on the floor it is about as easy to walk over as a feather bed. Over the loins you will find, if you look closely, a broad "saddle-mark" of dirty-white hair, shorter than the rest of the coat. Next to the body is a matted mass of very fine and soft hair, like clean wool, so dense that to snow and fog it is quite impenetrable. Over this lies a thick coat of very long, straight hair, often twelve inches in length and sometimes twenty, like the grass rain-coat of a Japanese soldier. Sometimes it actually touches the snow as the animal walks.

Three Deaths from Paregoric.

Hornellsville, N. Y., June 24.—The wife of George Huber, living near Fremont, last night gave her children—Rose, aged 2 years, and Fred, aged 7—a dose of paregoric. Mrs. Huber also took some of the medicine. The girl and mother soon died in terrible agony, but the boy's life was saved. Last winter Mrs. Huber took a child to a neighboring village to be christened, after giving it a dose from the same bottle, and upon arriving at the church the child was found to be dead, supposedly from suffocation.

ARE LIKELY TO OPEN A TEMPERANCE PARK

NEW RESORT PLANNED BY A SUNDICATE.

If They Can Get The Land They Want In the Mole Addition The Scheme Will Be a Go—Reached By Both Street Cars and Boats—Other City News.

Janesville people are likely to have a new and handsome pleasure park, close to the city and within easy reach, It will be a park where the sale of intoxicating liquors will be prohibited at all times, where churches and societies Sunday schools, and others may congregate for a day's pleasure without being contaminated by the sale of liquors A syndicate has already been formed and options secured on a tract of from ten to forty acres, beautifully wooded, and with a large river front, which it is proposed to purchase and transform into a pleasure ground. There is plenty of room in the tract for a good racing course for bicycles while the groves and bluffs will furnish ample opportunities for the erection of other amusement devices, making the park one which will attract everybody. The grounds will be made accessable to the street car line, and there are a number of good springs which will furnish an abundance of pure water. "Yes, a party have been looking the grounds over," said a member of the syndicate this afternoon, "and I think we will buy it. The grounds are just north of the Mole additions, on Madison avenue. There is a tract of forty acres, which the syndicate wants, but they do not want to interfere with the Caledonian society or Catholic League, both of whom have an eye on this property. If it can be secured without interfering with others, I think the new park will soon be one of the institutions of the city."

If everybody's heart is reached through their stomach as the old adage says a man's is, there must be at this time a great deal of sentimentality as Mrs. M. Abbey, the lady who is giving away baking samples from Perfection Baking Powder and extracts in the city, has had between 1,000 and 1,500 visitors who have tried her biscuits and coffee. Most all these people are now using this brands of good products.

W. J. Hanke of Lincoln, Nebraska, and Miss Mary Riff of 305 Locust street, will be married at St. Paul s Lutheran church at eight o'clock tomorrow evening. Miss Riff has many friends in this city who will wish her much joy. The young people will make their home at Lincoln, Nebraska, where Mr. Hanke is engaged in the dairy business.

You can't sell a thing there is no merit in and keep it up very long, people wont be humbugged all of the time. We commenced some time ago selling all our shoes at fifty cents on the dollar, our trade from the stock has been very flattering. The goods must be all right to stand it, but be convinced by personal inquiry. Becker & Woodruff.

One hundred or more pupils of St. Paul's parish school are enjoying a picnic up at Crystal Springs today, the steamer Columbia took the party up the river. They paraded the streets this morning headed by the G. A. R. drum corps, each carrying a flag.

HURT BY A COLT IN THE RIVER

Gus Splitstaver Had a Rather Narrow Escape While Washing Horses.

When Gus. Splitstaver tries to lead another colt in the river he will do it with a little more caution. Yesterday afternoon while washing horses in the river at the rear of Thoroughgood & Co's box factory, a colt refused to go in the river. After Splitstaver had pulled him part way in, the animal all at once gave a spring, and landed both front feet on Splitstaver, knocking him down and bruising his side. The colt passed over Splitstaver, swimming out in the stream, while Splitstaver barely saved himself from drowning.

MRS. M. DORSEY DIES ON A FLYING TRAIN

SON FOUND HER IN THE SLEEP OF DEATH.

She Was on Her Way To the Capital City But When That Town Was Reached It Was Found that She Had Expired Without a Struggle —Other Obituary Notes.

"Wake up, mother, we are in Madison," said Michael Dorsey of this city as he took Mrs. Martin Dorsey by the shoulder when the 11:15 train arrived in that city Saturday morning.

No answer came.

"My God! she's dead!" Dorsey called and the other passengers crowded around the seat. He spoke the truth. Mrs. Dorsey's sleep was that of death, and her spirit had taken its flight as the train rushed along the rails.

Dorsey was the fireman on the train and when they arrived at the Capital city he went back to the passenger coach. He found his mother reclining in the seat. Her head rested easily on the window casing and her whole appearance was that of slumber, but when the son tried to awaken her he found that there would be no awakening on this earth.

Died Without a Struggle.

Mrs. Dorsey had appparently passed away without a struggle or a sound. The other passengers in the car were unaware of the silent visitation of death.

Her home was in Chicago and she was on her way to the Capital city. She had stopped at her old home in Janesville to visit the grave of her husband and in this city had been helped by her son to a seat in the coach. She complained of being ill while in Janesville but not what might be called sick. Willing hands helped carry the body from the train, and it was conveyed to the home of her son. A coroner's jury will determine the cause of death.

Well Known Here.

Mrs. Dorsey was a widow, sixty-seven years old. She started for Madison, with the intention of accompanying her daughter-in-law, Mrs. Michael Dorsey, to Chicago, where relatives of the family reside, and where they were to make their future home.

Mrs. Dorsey was well known in Janesville, where she had resided for some time, her home, during her residence here, being on Gold street, and many friends will be shocked to hear of her untimely demise.

The funeral will be held from St. Patrick's church at 9:30 Tuesday morning, and the remains will arrive in Janesville on the 9:18 a. m. train. Mrs. Dorsey leaves two sons and two daughters, Thomas and Michael Dorsey, and Mrs. Delia Callahan and Nora Dorsey, both of Chicago.

Mrs. Thomas Butler.

Mrs. Julia Butler, wife of Conductor Thomas Butler, one of the oldest men in the employ of the C. & N. W. road, died at her home in Fond du Lac at half past three o'clock yesterday afternoon, after a lingering illness. Mrs. Butler has many friends in Janesville where she resided until six years ago, when she moved to Fond du Lac. Her husband had charge of the day train from that city to Green Bay. Besides her husband four children are left to mourn the loss of a mother whose every thought was for their welfare. The funeral will be held from St. Patrick's church tomorrow morning. The remains will arrive at 10:40 tonight and be taken to the home of Patrick Butler on Western avenue.

Freddie Zebel.

Freddie Zebel, the eighteen months' old son of Mr. and Mrs. William Zebel, of the town of Harmony, died Saturday evening, June 22, of inflammation of the bowels. The funeral services were held from the home at 1 o'clock this afternoon, and the burial was in the Harmony cemetery.

NEW GAMBLING ROOM RAIDED

Officer HoganStops Their Sport at 3 Oclock Sunday Morning.

A new gambling room was raided by Officer Hogan early Sunday morning and twenty-two men caught in the act.

While patroling West Milwakee street, just as the lights were going out at 3 o'clock, the officer halted at the corner of Milwaukee and Franklin street. As he stood there he heard the rattling of chips in a second floor room and thinking that everything was not right, made his way up the stairs and was soon at the door. After waiting at the door thirty minutes, the officer was rewarded for his patience for one of the occupants, a well known young man, unlocked the door to go home. Then the officer worked his way inside, where he discovered that craps and poker were the chief attraction. The officer stood guard at the door and counted twenty-two in the room, all of whom were well known. Eight of them were barbers and there names were all taken. What the outcome will be, remains to be seen, but three of the young men took the early train yesterday for Chicago.

BOY NEARLY KILLED BY A COW

Five Year Old Son of Henry Stinger Hooked in the Face.

Beloit, June 24.—[Special]—The five year old son of Henry Stinger, was nearly gored to death by a cow last evening, the animal running one horn into the boy's face, inflicting a terrible wound besides otherwise injuring him.

RACED WITH A STREAM OF BLOOD

Only The Fleetness of a Running Horse Saved Forrey Gower's Life.

With a stream of blood pouring from his nose and the horse on a dead run, Forrey Gower was brought into the city from his home, six miles out in the town of LaPrairie. Mr. Gower was working all day in the hot sun on a tobacco planter. When he went to the house that evening, he complained of a pain in the head and all at once blood gushed in a perfect stream from his nose and mouth. After efforts to stop the flow had failed, Gower was brought to this city, the horse having galloped all the way. Dr. George Chittenden was called and the flow was finally stopped. Gower is now in a weak condition at the South Bluff street home of his mother, Mrs. R. Pollock.

PLAYED PEEK-A-BOO WITH A TRAMP

Officer Hogan Has Some Difficulty In Capturing An Inebriated Citizen.

Patrolman Hogan experienced considerable trouble, Sunday asterncon, in capturing an unruly drunk, he spending several hours in skirmishing. The man was hanging around the St. Paul railway side track on North River street, and whenever he saw Officer Hogan making for him, he would dodge over the raceway, and thence over the river. After considerable maneuvering Officer Hogan secured the services of John Brown, asking him to go to the east end of the bridge and await developments. Presently Hogan caught sight of his man and started for him on a run, Over the bridge the inebriate ran, but this time he fell in the trap—or rather John Browhs embrace and was taken to jail.

BOY'S KNEE GASHED BY A SAW

Fell on the Sharp Teeth While Playing in an Oat Bin.

The little eight-year-old son of Pete Draphal, of Afton, met with quite a serious and painful accident on Saturday, falling on a buzz saw, cutting his leg and knee cap in a horrible manner. Mr. Draphal had placed the saw in an oat bin, covering it with oats. The little boy took a kitten and climbed into the bin, as he claimed, to teach the kitten to catch mice. In playing in the bin, he jumped on the sharp teeth of the saw, with all his weight, cutting his leg and knee cap. Dr. C. L. Clark was called to dress the wound.

COUNCIL WILL MEET TONIGHT

It Is Intimated That There Is Considerable Business To Be Done.

An adjourned meeting of the common council will be held this evening. The regular order of business which was omitted at the meeting one week ago, will be taken up and disposed of. The ordinance in relation to the uniform charter will probably be taken up under suspension of the rules, as passed, and there are whispers that some new business may be brought forward in relation to the streets—probably the purchase of a steam roller.

A LARGE SHIPMENT OF CATTLE

Ogden H. Fethers And M. G. Jeffris Buy Them On a Speculation.

A good shipment of cattle has arrived in the city from Chicago, and was unloaded at the Janesville Stock Yards. The consignment was bought by George Charlton, the well known stock buyer, are owned by Ogden H. Fethers and M. G. Jeffris, the lawyers, who will pasture them in Rock County on a speculation. There were 156 head in the shipment.

J. C. HAMILTON HERE ON A VISIT

Former Janesville Man Renews the Acquaintances of Years Ago.

John C. Hamilton, of Minneapolis, is in the city visiting relatives and old time friends. Mr. Hamilton is now in the employ of the "Soo" railway, as telegraph operator. He learned to manipulate the key in Janesville over twenty years ago, he being messenger boy in the local office several years.

Lowell the Hustling Man.

The above name has been a household word, and the possessor of the name is one of our hustlers. Being generously endowed with business principles and lavish in the use of printers ink, he has built up a marvelous trade, both in magnitude and variety.

He is now fitting up the large double store on South River street, adjoining the hardware store, which will known as "Lowell's Midway Annex." His intention is to make this a department store, and a leader in prices. So far as possible, he will handle goods that are manufactured at home. They now have in stock a fine line of Cunningham's clothing. With their guarantee you are safe. Every article warranted, and prices as low as the lowest.

Marzluff & Co.'s. shoes, which are known the world over for style and wearing qualities, will be found in all sizes at this store. Also the Janesville Machine Co's. mowers, cultivators, harrows, etc. Janesville Barb and nails.

Patronize them. You can save money.

Buggies.

No need to talk, when it is cheaper to wear out steel tire than shoe leather, and so much easier.

We are showing this in eight styles of light buggies, and can save you money. Many who buy of us remark, "This is the first place I have been, but I guess there is no need to look farther." That's right. F. A. Taylor.

TWO THINGS PUZZLE THE CITY FATHERS

SEWER BUILDING DISCUSSED BACK AND FORTH.

Many People Think That Private Parties Should Be Compelled to Follow the Loweth Plan—Complaint Made About The Proposed Trimming of Shade Trees.

Two perplexing questions now confront the common council and the property owners. The first and most important is that relating to the construction of sewers. Many people insist that the council must now take hold of the construction of the main sewers as contemplated in the Loweth plan and that people whose premises demand sewerage may find an outlet therein. People who reside several blocks from the river hesitate putting in private sewers, inasmuch as those who now have sewers on their streets charge, they claim, exorbitant prices for connections. So far, the city has taken no steps whatever, beyond the procuring of plans, yet a score or more private sewers have been constructed since the plans were approved, all leading directly to the river regardless of the approved plans.

Some of the aldermen now favor dividing the city into sewer districts, as contemplated by the plans, and then if the people in any particular district desire the sewer built, especially the main division, the council will undoubtedly go ahead with the construction.

The other question relates to the trimming of shade trees which line streets. There is an ordinance, passed some fifteen or twenty years ago, which requires that all trees shall be so trimmed that the lowest limb shall not be less than ten feet from the ground. This ordinance has been a dead letter from the day it was passed. Its enforcement, it is claimed would ruin nearly every tree in the city, hence no attempt was or has been made to enforce it.

Since electric lights have superceded gas, it has materially altered the case. On many streets the branches of the trees make a complete arch of the street. At this season, when the trees are in full foliage, the electric lights have very little effect in illuminating the street beyond the first trees next to the light. It is claimed by some that the trees should be trimmed in such a manner as to admit of a clear and unobstructed view of the lamp from one to the other. On the other hand, many who have spent years in growing and caring for their handsome shade trees, object to a wholesale cutting off of limbs. They admit that in many instances some of the large limbs are possibly too low for the convenience of the public in driving, and are willing that they should be cut off; but otherwise, they claim that they prefer the shade to the extra light. There has been some talk of bringing the tree trimming ordinance before the council, with a view of amending it, permitting the trimming of the larger trees.

'ALL SOULS' The Peoples Church

The man who is so afraid of tumbling off that he will never mount a horse, may fancy that Nature intended he should not ride. So the man who is so afraid of making a mistake that he will not attempt to think for himself may fancy that God intended some church or priest to think for him.

In either case the conclusion is equally absurd.

"All Souls" does not assume to furnish men with ready made creeds of any ecclesiastical brand. Nothing is more imperative than that a man must think for himself. *Only let him be deliberate and thorough and reverant.*

DYING.

Passing out of the shadow
Into a purer light,
Stepping behind the curtain,
Getting a clearer sight,
Laying aside the burden,
This weary mortal coil,
Done with the world's vexations,
Done with its tears and toil,
Tired of all earth's playthings,
Heartsick and ready to sleep,
Ready to bid our friends farewell,
Wondering why they weep,
Passing out of the shadow,
Into eternal day—
Why do we call it dying,
This sweet going away?

THE BEECH TREE.

There stood in the forest an old beech tree. Her top was shattered by lightning, her sides were hollow, and pieces of fungus grew on her bark. She was the oldest of a numerous family, but she had seen her children, as soon as they had grown up, fall under the woodman's ax, and only one daughter remained to her. This daughter was a young beech tree, with smooth bark and heaven aspiring crest and only 80 years old. That is the best year for a forest tree.

The old tree still thrust out her twigs and leaves in the spring, but she felt that her life was drawing to a close, for it cost her great suffering to hold herself upright. And because she knew that she must die she felt her love increase for her beautiful daughter.

Spring was approaching. The branches were still covered with the glittering frost, but the roots began to uncurl, and the warm wind melted the snow. The rivers and brooks were swelling with melted ice. In the meadows the silvery catkins burst from their wrappings, and the snowdrops peeped timidly up through the white carpet of the forest ground.

The old tree spoke to the young: "To-night comes the violent thaw wind. It will throw me down upon my bed of leaves that I have scattered in the course of time, and I shall go back into the bosom of the mother from whom I came. Yet before I go home I will bequeath to you a gift that the gentle lord of the forest bestowed upon me when long ago he stopped to rest under my branches. You shall understand men's words and deeds and share alike in their joys and sorrows. That is the greatest happiness that can fall to our lot, but be prepared to behold more sorrow than joy." So spoke the old tree and blessed her daughter.

In the night the thaw wind came from the west. It buried ships in the waves of the sea; it rolled great masses of snow from the mountains that destroyed the homes of men in their progress; it roared through the forest, and everything that was old and weak perished. But the strong trees resisted it. It struck the old beech tree to the earth and shook her strong daughter as she wisely bent her head before the blast, and the great wind swept on.

Three days the daughter wept sparkling dew for her mother; then the sun came out and dried her tears. Then began everywhere such stir and commotion that the beech tree had no time to grieve. Her buds swelled and burst and one morning a hundred thousand trembling, tender green leaves sprang into the sunshine. That was joy! Golden yellow primroses climbed from the ground. They pushed their silken leaves out into the broad sunlight. Red and blue blossoms grew up around the primroses, and the sweet woodruff uncurled its delicate whirled leaves. That was life.

And in the midst of all this bloom and fragrance the young beech tree stood like a queen. A finch built her nest in her branches and a redheaded woodpecker paid her a visit. Once cuckoo came and once a distinguished squirrel with his bushy tail over his head ran up and down to see if he might not find an acorn. But men she had not yet seen this year, and they would have been the most welcome guests of all, since she possessed the power to understand their words and deeds. After all, one morning came a slender young girl with her long brown braids, who walked through the woods straight to the tree. However, her visit did not seem to be for the beech alone. She glanced at the decaying trees on the ground and said, "Here is the spot." Then she sat down her basket filled with May flowers and leaned back against the beech tree without a glance at its green loveliness.

The tree held her breath to hear what the maiden would say, but the pretty one was silent. Presently from the opposite side appeared a strong young man. He wore a little round hat with a curling feather like a huntsman. He crept up cautiously—so cautiously that hardly a leaf rustled under his feet. But softly as he stepped the quick ear of the maiden perceived his coming. She turned her head toward him, and the tree thought, "Now she will fly." But the girl did not fly. Instead she sprang toward the youth and threw both arms around his brown neck. "My Hans!" "My Eva!" they cried together. Then they kissed each other passionately, called each other pet names, embraced again, and the beech tree found it all very tedious.

Later they sat under the tree and spoke of their love. It was an old story they told, but it was all new to the beech tree, and she listened like a child to a fairy tale. It was a wonderful surprise to her. The youth arose from the ground, drew out his knife and began to carve in the bark of the tree. This caused the beech great pain, but she held as still as a wall.

"What is that to be?" asked the maiden.

"A heart with your name and mine," answered Hans as he continued to carve.

When the work was finished, they both looked at it, well pleased, and the tree was as happy as if a king had hung a golden chain upon her.

"Truly, men are splendid people," thought she.

Now the hunter began to sing. The tree had listened many times to the song of the finch and thrush, but she heard now for the first time something very different from bird songs.

"Listen, Hans," said the girl when the hunter paused in his song. "Your song reminds me of something. I know—people say—that in the autumn you go secretly into the woods for game. Let the poaching go. The forester is your enemy. You know why, and if he should meet you poaching in the woods, then—heavens! my Hans! if you should be brought to me with a bullet through your breast."

The young man bent over the girl, who leaned caressingly on his shoulder and kissed her lips.

"People talk too much. Don't believe everything they say, sweetheart." And putting his arm around her they went singing through the forest.

When the couple disappeared among the trees, a man in hunter's dress crept from the bushes. He carried his gun on his back and a knife in his belt. His face was white and distorted. He went up to the beech tree and beheld the heart that Hans had carved. He laughed wildly and drew out his knife to destroy the writing, then, changing his mind, he thrust the blade again in its sheath. Shaking his fist threateningly in the direction where the couple had disappeared, he muttered, grinding his teeth, "If I meet you, you poacher, only once on forbidden ground, you will have heard the cuckoo sing for the last time." With these words he went into the woods.

And the tree shook her head sadly.

The beech tree got many a sight of the faces of the children of men in the course of the summer—the poor women gathering leaves or dry bark, the berry pickers, foresters and pilgrims. But the most cherished amid the guests who gathered under her leafy roof were the youth and brown haired maid. They made weekly visits to her, spoke of their love, embraced each other, and day by day the beech tree came to love them more.

One morning before sunrise, when the mountains were just casting off their gray mist caps, Hans came alone. He carried a gun on his shoulder and stepped as lightly through the underbrush as if he would take his sweetheart by surprise. This time his coming had nothing to do with lovely Eva—but the stag comes this way to drink!

At the foot of the tree the hunter paused and stood as motionless as the beech herself. The cool morning wind blew, and the mist disappeared in heavy clouds. The gay birds fluttered and sang about the stream. The underbrush rustled. Hans raised his gun. A shot rang out on the clear air. Hans dropped his gun, sprang convulsively into the air and fell to the ground. A man strode hastily from the thicket with a smoking gun in his left hand. The beech tree knew him well. The huntsman bent over the murdered man. "It is all over with him," he said, and taking his gun he vanished into the bushes.

The bright sun rose and shone upon a still form with set white face. Sorrowfully the tree bent over and wept bitter tears, and the little robins flew up and covered the dead face and staring eyes with leaves and twigs. In the afternoon some woodcutters came that way and found the body.

"He has been shot while poaching," they said, and taking him gently up they bore him to the distant valley. An old man lingered by the tree. He drew his knife and carved a cross over the heart that Hans had made. Then he took off his hat and breathed a prayer. The leaves of the green crest rustled, for the tree prayed, too, in her own way.

For many summers on the anniversary of the death of the murdered man, the maiden came to the seat, knelt down and wept and prayed, and every time she was paler, more fragile. One day she did not come, and the tree murmured, "She is dead!" and so it was.

Years passed. The beech had become a mighty tree. Her bark was covered with brown moss. The wild vines clustered about her trunk, and heart and cross were both nearly covered. A man came one day and made a third mark on the bark, and the tree knew her time had come. She bore the sign of her destruction—she must soon fall. Farewell, thou green and sunny forest! She had not long to wait for the woodmen, who came, and with cruel axes cut into her very life.

A gloomy, glowering man in hunter's dress, with long gray hair and beard, directed their movements. The beech knew him right well, and he appeared to recognize the tree. He came close to her and tearing away both moss and vine he saw that heart and cross were safe. "Here it was,' he muttered, and horror shook his very frame. "Back, Herr Forester! Back!" cried the men. "The tree is falling!"

The warned man stepped back, but it was too late. With a deafening crash the beech fell to the ground and buried the forester under her corpse. When they picked him up, he was dead. The beech had crushed his head. And the men stood in a circle roundabout and prayed for his soul.—From the German.

Manna.

Manna is the concentrated juice of several plants which grow in great abundance in many parts of south Europe, Asia and Africa. The tree which most generously produces it is a sort of ash. The juice exudes from the stem during the summer months, as a consequence of the punctures of an insect that infests the tree, but the better kinds of manna, known as "flake manna," are obtained from incisions made in the bark. The poorer qualities come from the bark near the roots of the tree. The manna of commerce is obtained chiefly from Sicily and Calabria. A variety is collected by the Arabian Bedouins from a species of tamarix, which is used on bread like honey. The word is believed to be derived from the Syriac mano, a gift, though there is little evidence that the medical substance now known by that name has anything in common with the manna mentioned in the travels of the Israelites.

BETTER THAN A GOLD MINE.

Last month I cleared, after paying all expenses, $235 38; the month before $186.86 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for $5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co. Station O. Englewood, Ill. I feel convinced that any lady or gentleman, in any location can make $5 to $10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. 41 ICE O.

Excursion to the World Famed Dells of Wisconsin.

This country has a great variety of wonderful scenery. but none more beautiful and romantic than the famous Wisconsin Dells at Kilbourn, on the Chicago, Milwaukee & St. Paul Railway. There is nothing anywhere within civilized lines to equal the grandeur of the weird scenery abounding for a stretch of seven miles, from Kilbourn northward on the Wisconsin river. Its bold, rocky outlines towering skyward, assume shapes in conformation perfectly amazing. It canons and witches' gulch are features never to be forgotten, for there is nothing like them in America. Do not fail to enroll yourself as one of the great number who will take advantage of the excursion to this resort on Wednesday, June 26, over the Chicago, Milwaukee & St. Paul Ry. The fare for the round trip, which also covers the steamboat trip on the river, is but two dollars.

There is great danger in neglecting cholera, colic and similar complaints An absolutely prompt and safe cure is found in DeWitt's Colic and Cholera Cure. C. D. Stevens.

Races at Woodstock.

For the above occasion, the Northwestern line will, from June 25 to 27, sell excursion tickets to Woodstock, Ill., and return at reduced rates, good for return passage until June 28, 1895, inclusive. For tickets and full information apply to agents, Chicago & Northwestern R'y.

DeWitt's Colic and Cholera Cure never disappoints, never fails to give immediate relief. It cures just as sure as you take it. C. D. Stevens.

Excursion to West Superior.

"A Friend In Need Is a Friend Indeed."

A friend advised me to try Ely's Cream Balm and after using it six weeks I believe myself cured of catarrh. It is a most valuable remedy—Joseph Stewart, 624 Grand avenue, Brooklyn, New York.

My son was afflicted with catarrh. I induced him to try Ely's Cream Balm and the disagreeable catarrhal smell all left him. He appears as well as any one.—J. C. Olmsteed, Alcola, Ill.

Price of Cream Balm is 50 cents.

Excursion to West Superior.

To the Wisconsin State Mecical Society held July 19. For this occasion the Chicago, Milwaukee & St. Paul Ry. Co. will sell tickets at reduced rates. For detailed information enquire of agent.

When occasion demands its use, try De Witt's Witch Hazel Salve. It is cooling to burns, stops pain instantly, cleanses, a perfect healer for scalds or skin eruptions. Always cures piles. C. D. Stevens.

Excursion Rates for July 4.

The Chicago, Milwaukee & St. Paul Railway will sell excursion tickets to all points on its lines within two hundred miles, on July 3 and 4, at a fare and third for the round trip; good to return until and including, July 5.

The most pleasant little pills for regulating the bowles, are De Witt's Little Early Risers. Cure sick headache and constipation. Small pill. Small dose. C. D. Stevens.

You Don't Have to Swear Off

says the St. Louis Journal of Agriculture in an editorial about No-To-Bac the famous tobacco habit cure. "We know of many cases cured by No-To-Bac, one, a prominent St. Louis architect, smoked and chewed for twenty years; two boxes cured him so that even the smell of tobacco makes him sick." No-To-Bac sold and guaranteed by E B Heimstreet. No cure, to pay. Book free. Sterling Remedy Co., New York or Chicago.

The Point of the Pistol

Is an effectual persuader, and there are many persons so unmindful of the symptoms of oncoming disease that it would almost take that deadly argument to induce them to adopt precautionary measures. The best of these is a recourse to that fine botanic restorer, Hostetter's Stomach Bitters. It vanquishes malaria, rheumatism, kidney and bladder trouble, failing digestion, biliousness, and irregularity of the bowels, and completely fortifys the system against their further inroads. Its ingredients are drawn from nature's storehouse, consequently it is free from the objections attaching to many absolutely or semi-mineral remedies. For the delicate, infirm, convalescent and elderly it is peculiarly beneficial. It well merits continuous and systematic use. Take it at bed time to induce sleep, and between meals to stimulate appetite and digestion. The medical fraternity concur in indorsing it.

Travelers find a safe companion in De Witt's Colic and Cholera Cure. A change in drinking water and diet often causes severe and dangerous complaints. This medicine always cures them. C. D. Stevens.

Fourth of July Rates.

On July 3 and 4 the Northwestern Line will sell excursion tickets at low rates to local stations within two hundred miles, good for return passage until July 5, 1895, inclusive. For tickets and full information apply to agents Chicago & Northwestern Railway.

A Store's Popularity...

It does not come by accident; there must be something more tangible than mere happenstance to bring a store into popular favor. Take for example this store: where in all Janesville or in the surrounding towns will you find the economical woman who does not know of ARCHIE RIED'S and of the substantial bargains always to be found here? It is just the idea of always having the right thing and of always having it at a little lower price than our neighbors, that has made this store the Mecca of bargain seekers; it is such values as follows that make women turn to this store when in quest of anything in the line of reliable merchandise at a price.
